

INTEGRATED ENERGY SOLUTIONS

ELSEWEDY
ELECTRIC

Integrated Energy Solutions

Brief about the company

A global leader that has evolved from a local manufacturer of electrical products into a giant provider of integrated infrastructure solutions; with over 17,000 employees and more than USD 3.8 billion market capitalization. We Operate in five key business sectors: Wire, Cables & Accessories, Electrical Products, Engineering & Construction, Digital Solutions, and Infrastructure Investments. With a strong presence in 19 different countries, 31 production facilities spread across African and Asian countries including Egypt, Algeria, KSA, Qatar, Indonesia, Pakistan, and Tanzania. We export a wide range of high-end products to over 110 countries worldwide. At the heart of our approach is an all-in-one integrated Engineering, Procurement & Construction (EPC) service which enables us to deliver the most complex turnkey projects on time and with the highest efficient.

A vital part of our mission is ensuring that the communities where we operate develop and flourish. We work to facilitate the global transition toward a sustainable energy future, whereby we established green energy projects and smart cities across Africa, the Middle East, and Eastern Europe. In alignment with our 2030 sustainability strategy, we aim to extend and enhance our positive impact, provide energy services to a growing customer base, and drive decarbonization, digitalization, and sustainable transition in Egypt and beyond.

Our growth has been driven by hiring talents and empowering businesses and communities where we operate. We enable customers to digitize and meet the challenges of an ever-changing world. Our extensive range of digital solutions allows them to become smarter, faster, and more agile. We are committed to doing our best to serve our customers while caring for the environment. We aim to use our knowledge of our environmental impact to better develop more sustainable business scenarios and evaluate our future policies.

DIGITAL SOLUTIONS

Elsewedy Digital is a global system integrator focusing on large-scale end-to-end, fully integrated software and hardware solutions that enable immense digital transformation. Our mission revolves around smart digitization so that our clients can reap more business benefits from their technology investments. Our services are organized under several categories: telecom infrastructure, ICT infrastructure, complete data center setup, ELV systems, IoT & smart solutions, software, enterprise, and financial services solutions, industrial and grid automation, and cloud services. We have an extensive network of technology partners in every domain, and our solutions cater to many industries, including governments, utilities, telecom operators, oil & gas, enterprises, and financial institutions.

INFRASTRUCTURE INVESTMENTS

Our investments in infrastructure, industrial cities, ports, and utilities development projects seek to improve the quality of people's lives, create new job opportunities, and support economies to thrive. Since sustainability is at the heart of Elsewedy Electric, we focus on investing in green power generation projects under the Independent Power Producer (IPP) scheme and using BOT & BOOT financial models in power, and water projects. Our priority is to always provide unmatched integrated services and solutions that create value for all our stakeholders.

HEALTH, SAFETY & ENVIRONMENT (HSE)

Employee safety is of high priority at Elsewedy Electric. There has been a significant improvement in the safety performance of the company.

SUSTAINABILITY

We believe in our moral obligation to society, and one thing that has not changed during our years of growth is our commitment to our communities. All companies across the group implement our policy and vision for reducing our carbon footprint. We comply with all applicable and relevant environmental laws and regulations and we mitigate the environmental impacts of all business lines, factories, and facilities.

ELSEWEDY TECHNICAL ACADEMY (STA)

Elsewedy Technical Academy – STA is working under the umbrella of Elsewedy Electric Foundation, a non-profit organization, which is responsible for the opening of all STA branches under the law of Egypt. STA offers top notch technical education based on a dual education system with an international benchmark, through technical secondary schools in cooperation with the Ministry of Education. All educational programs are customized based on the needs of leading economic industries in Egypt. STA also offers vocational training programs aiming at enhancing existing workforce and supporting employability of youth.
